OXFORD INNOTECH SECURES DATA CENTRE PRECISION COMPONENTS CONTRACT WORTH RM4.8 MILLION*~ To supply precision components for data centre airflow management solution*

Kuala Lumpur, 21 January 2026 – Integrated engineering solutions provider, Oxford Innotech Berhad (“OXB” or the “Group”) (牛津科创有限公司), through its wholly-owned subsidiary, CG Solutions Enterprise Sdn Bhd, has today accepted a letter of award from the Singapore office of an Australia-based data centre and computer room infrastructure specialist to supply precision steel components for data centre airflow management solution. The contract, valued at RM4.8 million, is for a data centre project by a US-based global technology group.

Managing Director of OXB, Mr. Ng Thean Gin (黄天仁), said, “This is a good start for us in the new fiscal year, considering this is also a new customer to the Group. The award is a strong validation of our technical capabilities and execution strength in supporting mission-critical jobs, particularly in meeting stringent project requirements and tight delivery timelines of data centre project. The contract, which will commence next month with completion slated by end of 2026, will contribute positively to our earnings in the current fiscal year.”

He added further, “Looking ahead, we will continue to build on this momentum, and look forward to securing more similar projects going forward. Overall, we remain positive on the Group’s outlook, underpinned by the resilient demand trajectory of the semiconductor industry and continued investments into high-specification manufacturing and mission-critical infrastructure such as data centres across the region.”

To recap, OXB was listed on the ACE Market of Bursa Malaysia on 29 July 2025, and raised RM41.6 million, primarily earmarked for capacity expansion and capability enhancement to support future growth.
